 - Chair Applegate asked for a motion to approve the agenda. Vice Chair Roça moved to approve the agenda. Member Murrieta seconded. Motion approved 6-0-0
Yes: 6 (Adrian Carver, Luciana Roça, Alex Applegate, Leila Murrieta, Frank Horine, Sebastian Bentley)
No: 0
Abstain: 0
- **Review and Approval of June 9, 2025 Meeting Minutes**
 - Chair Applegate asked for a motion to approve the agenda. Vice Chair Roça moved to approve the agenda. Member Bentley seconded. Motion approved 5-0-1
Yes: 5 (Adrian Carver, Luciana Roça, Alex Applegate, Leila Murrieta, Frank Horine)
No: 0
Abstain: 1 (Sebastian Bentley)
- **Public Comments**
 - None
- **Discussion / Action Items**
 - **Discussion:** Comprehensive Plan Amendment: Amendment of the Centers and Corridors map to add Menaul Blvd as a Major Transit Corridor to reflect the new ABQ RIDE Forward Recovery Network (Case ID: Plan-2025-00001), Matthew Cox, Principal Planner, Council Services, City of Albuquerque
 - Background for this discussion with GAATC:
 - EPC did recommend approval on this case, with a condition that Council reach out to GAATC and the Indian Pueblo Cultural Center.
 - Amend the Comp Plan to classify the Menaul corridor, west of Louisiana to Rio Grande, then south to I-40 from a Multi-modal to a Major Transit Corridor, and connecting to an existing Major Transit Corridor at I-40. This proposal connects the Uptown Urban Center, the Activity Centers, American Square and Indian School.
 - Multi-Modal Corridor Type prioritizes pedestrian, transit, and auto users, with bicycle facilities on nearby parallel streets.
 - Major-Transit Corridor Type prioritizes high-frequency and local transit service over other modes to ensure a convenient and efficient transit system.
 - This request is based on the new route frequency proposed in the ABQRIDE Forward Network Plan.

Jennifer Turner, Director

- IDO regulations for a Major Transit Corridor designation allow for new entitlements that are detailed in the IDO Provision for ABC Comp Plan Centers and Corridor Areas, Table III.
- Comp Plan Policy 6.1.6 for Major Transit Corridors: Prioritize transit users in street design and improvements, encouraging pedestrian amenities, such as bulb-outs, pedestrian-activated signals, and refuge medians at intersections and near transit stops and stations.
- Development Process Manual, Table 7.2.29 Street Element Dimensions details the difference between the two corridor types, with the only difference being that a Major-Transit Corridor allows for a travel lane width up to one foot wider than a Multi-Modal Corridor allows.
- This Comp Plan Amendment Case will still go through two other meetings, the Land Use Planning and Zoning Committee of Council in August and the full City Council most likely in September.
- *Member Carver requested a motion to recommend approval of this Comprehensive Plan Amendment to the Land Use Planning and Zoning Committee and the City Council. Chair Applegate moved for a vote. Member Bentley seconded. Motion approved 6-0
Yes: 6 (Alex, Luciana, Sebastian, Adrian, Frank, Leila)
No: 0
Abstain: 0
*GAATC will vote on whether to ratify this recommendation of approval at their August meeting.

- **Presentations**

- None

- **Staff Reports**

- Municipal Development (DMD), Engineering Division, Paul Olson, Manager
 - Buena Vista Bike Boulevard project 2nd Open House was on July 9th:
 - Staff shared 60% plan drafts, project updates, and information boards
 - Attendees were able to provide and discuss questions and comments
 - Next steps: Team is working on reviewing comments and revising 60% plan. After revision, the 60% plan moves to the Design, Review, and Construction (DRC) section of the Planning Department and continues to 90%. The final design is planned to be completed by the end of 2025. When the plan is complete, a contractor will be selected after funding is secured.
 - Updates will be shared again in a few months.
